REASONS FOR ALLOWANCE

Allowable Claims

Claims 1-22 are allowed.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: A thorough search of the prior art of record did not disclose any reference, alone or in combination with other reference(s) that teaches or fairly suggests an apparatus for drainage of a wound or surgical site comprising a plurality of fibers without any supporting sheath or tubing extending thereabout or surrounding said plurality of fibers.

The closest prior art of record is the combined teaching of U.S. Patent No. 6,605,068 to Righetti and U.S. Patent No. 5,358,492 to Feibus.

The prior art of Righetti fails to teach or fairly suggest the following: with respect to independent claims 1, 9 and 17, Righetti does not teach a wound drainage apparatus without any supporting sheath or tubing extending thereabout or surrounding a plurality of fibers. Feibus also teaches a wound drainage apparatus but fails to teach or fairly suggest an apparatus without any supporting sheath or tubing extending thereabout. Further, it would not be obvious to modify any of the prior art of Righetti, the prior art of Feibus, or the combined teaching of Righetti and Feibus to arrive at the claimed invention, as both the prior art of Righetti and the prior art of Feibus comprise a bundle of fibers with a supporting sheath or tubing, and removing that supporting sheath or tubing would destroy the function of the prior art of Righetti and the prior art of Feibus. Thus it would also not be obvious to modify any of the prior art of Righetti,

Feibus, or the combined teaching of Righetti and Feibus to arrive at the claimed method of manufacture.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
